

CANNA

The solution for growth and bloom

CANNA ROOTPLUGS

ELEVATE CULTIVATION FROM THE START

Introducing **CANNA Rootplugs** — a cultivator's key to optimal cutting and seedling rooting. Designed for seamless integration with natural substrates like coco and peat-based mixes, these plugs guarantee rapid and vigorous root development. Ideal for kickstarting your crops, as they absorb water rapidly while maintaining precise humidity levels.

THE BENEFITS

- Suitable for all seeds and cuttings
- Quick and easy water absorption
- Easy transplanting & fast rooting, cutting down pre-veg time
- Perfect balance between aeration & moisture retention
- Compatible with all natural substrates, such as coco and peat-based potting mixes
- Fully compostable and degradable
- Packaged dry for a longer shelf life

APPLICATION

- Fully soak the **CANNA Rootplug** using plain water or liquid fertilizer with an **EC of 1.5 and pH 5.5**
- Place plugs to allow excess water to drain away
- Insert the cutting or seed into the pre-cut hole.

For more information on **CANNA Rootplugs** contact our technical team at info@canna.ca

TECHNICAL SPECS

- Ingredients: Coco coir & Peat
- EC: 0,6* and pH: 5.4-6.8*
- Initial Moisture: 10-20%
- Moisture Retention: 89%
- Height: 48mm
- Diameter: 40mm
- *pH and EC measured in 1:1.5 extract with demineralized water.

PACKAGING & STORAGE

- Packaged in a plastic bag within a box to avoid cross contamination
- Quantity: 1,000 units per box
- Box Dimensions: 540 x 315 x 460 mm
- Box Weight: 7,5kg
- 24 boxes per pallet (24,000 loose Rootplugs)
- Storage: Keep in a cool, dark place above 4°C (40° F)
